

## **Create ICO script with lending platform, internal transfer and referral system.**

Features:

1. Referral system: direct commission if user invite investor buy ICO token 5% and up to 8% level when lending.

2. Members must deposit to their BTC Wallet or ETH wallet to buy tokens from balance: admin can set minimum & maximum deposit amount

- On BTC & ETH wallet, show QR code for sending BTC & ETH from mobile wallet

- Only members already bought above 100 tokens can withdraw BTC & ETH.

- Withdraw BTC & ETH enable/disable by admin, admin can set minimum & maximum withdraw amount

- Admin can set Auto or Manual deposit & withdraw

3. ICO function:

Admin can set whitelist members, whitelist members can buy tokens very easily. Unwhitelist members buy tokens so difficultly.

4. Tokens Wallet: can transfer tokens, using Token Wallet Address

5. Improve security: look at Bitconnect security, require 2 FA when withdraw, when internal transfer, when enable/disable 2 FA
